

# Cannabis Packaging You Can Count On

Reliable supply, clear communication, and competitive pricing for cannabis operators who cannot afford production delays.

“With Starship Packaging, we appreciate the more intimate partnership, responsive service, and personalized flexibility that we didn’t receive when working with larger packaging providers. They’re reliable, consistent, accommodating, affordable, and nimble, which is crucial in our industry and for our business. They just go above and beyond for us.”

Adam Donahue,  
Mendocino Grasslands

“I appreciate the hands-on approach and open and honest communication we get with Starship. Their positive reputation and their longevity in this particular industry speak volumes, and I’ve honestly never experienced a packaging supplier go so far beyond the call of duty.”

Daniel Wacks,  
State Flower, BLVD,  
& Super Good

“Starship not only price-matched my previous supplier but consistently has accurate & quick lead times, great communication and responsiveness, and is super transparent with all aspects of a project. They’re just so easy to work with and have saved us from so much of the stress and headache that can come with other packaging companies.”

Dylan Hendrickson,  
Renewal Gardens

“With Starship Packaging, you’re getting a killer price, it’s getting to you fast, and quality isn’t being compromised due to either of those things. I also love that I can call, text, or email them any time and always get a prompt response. HIGHLY recommend.”

Jonathan Slavin,  
Standard Wellness
